

Hello, my name is Bethany and I am going to tell you a little bit about my Net book. When I had my Net book my sister was always begging me to go on it so I had to let her because she always uses puppy eyes. Also I caught my dad and this is TRUE! He was going on face book without my permission. Aswell my mom was on the most embarrassing website ever BARBIE WEBSITE and I asked her the next morning if she did but she lied to me. Maybe my mom likes Barbie, well any ways lets carry on with the story. Finally when nobody in my family is using my Net book I like to go on super tucks and I had finished all the levels and I like to help people on super tucks and that was a bit about my Net book.
