

Become a Corporate Supporter of the e-Learning Foundation

Who we are

In the UK today there are still 1 million children that cannot go online at home. This digital divide is leading to a significant under performance for poorer children that can lead to social and economic problems further down the line.

The e-Learning Foundation was established in 2001 and is the only national education charity dedicated to achieving digital inclusion for disadvantaged children. We do this by providing expertise and support so that children are able to access a computer and connect to the Internet at school as well as at home.

We work with schools to ensure that the computing devices are provided in an educational context. Since being established we now work with over 500 schools and over 100,000 children are currently benefiting from our programmes.

Why your support is important to us

Whatever the size of your company, you can still make a difference to the lives of these disadvantaged children by supporting us.

All donations are warmly welcomed and valued and help to support the work that we do. It is important to us that we recognise the many smaller donations we receive.

You will be recognised as a Corporate Supporter for your donation of up to £2,500 in value, (or donation in kind) in any given 12 month period. This may come from a variety of sources:

- * Sign an Affinity Marketing deal with us on your sales into the education sector.
- * Adopt us as your chosen charity and fundraise for us (e.g. through staff giving, charity fun runs, golf days and Christmas e-cards)
- * Take a stand at our bi-annual conferences or sponsor an award
- * Donation in kind to the charity of related products or services

Benefits as a Corporate Supporter

We will work with you to develop a mutually beneficial partnership to support your Corporate Social Responsibility objectives. As a valued supporter, we will provide you with

- * Inclusion on our website and other marketing materials
- * Regular updates on news and events
- * Personal contact from the e-Learning Foundation team
